

## ENGLISH COURSES

WE SUGGEST TWO METHODS OF LEARNING:

- 1 In a British Council Accredited Language School – this is presented and conducted in closed groups who share common learning objectives. Certificates are presented to all students by the end of the course.
- 2 By qualified teachers in rented venues and in coordination with host families – this is a cheaper and unusual alternative but still good because we adhere to high standards in teaching.

HERE IS WHY YOU MUST INCLUDE ENGLISH COURSES AND OPTIONS IN YOUR PROGRAMME:

- The UK is the origin of the English language.
- The lessons are conducted by a resident English teacher.
- Teachers focus on the accents and inflections.
- Teachers frequently utilise an enjoyable yet educational approach to encourage student participation.
- English is spoken throughout the class.
- After classes, the student should become extra aware and understand road and street signals.
- Travel routes are discussed during class which helps students understand the vocabulary.
- Conclusively, if you selected host family accommodation for your group, there is a huge possibility that your students will be able to integrate themselves and partake in family time.

### SCHOOL INTEGRATION

**School integration is the best method for students to absorb and integrate themselves into the British school scheme.**

All your students might want to be an English apprentice during his/her educational time or in the day time. They might discuss similar topics in class, such as art, math, computing, science, English, and more. School integration can be as brief as 1 day, but we highly suggest at least 5 days to gain a good grasp of the language. Likewise, it can be combined with the accommodation.

Mariel Homestay's goal for this program is to:  
Inspire international students and let them make acquaintances

Become more sympathetic and open to cultural changes or dissimilarities

Improve communication with English companion students and teaching staff

Develop self-confidence and self-value by tackling challenges outside of their comfort zone without support from teachers or family members

Do not fail in improving your student's knowledge in this rare occasion. It is important that they be immersed in the culture and philosophy of an English school. Get in touch to learn more about the educational choices we offer. You will surely look forward to each one!

### ENGLISH LESSONS - SUMMER CAMPS

**Summer camps with English lessons and afternoon activities.**

We are pleased to offer English lessons with native TEFL (teaching English as a foreign language) qualified teachers. The fully qualified TEFL teachers conduct the lessons in modern, tidy classrooms with white smart boards (subject to accessibility) to improve the students' English skills. Our tutors are keen to teach and are more than happy to determine the needed subjects and motivate all students, from beginners to those who want to study at a higher level. The teaching programs are in line with school curriculum or adopted from specific subjects. Class sizes are comprised of no more than 15 students per classroom. This is to guarantee that students receive one-on-one attention and that the instructors can focus on any particular area that the class needs help with.

### MINI STAY GROUPS PLUS ENGLISH LESSONS

Get the most out of your stay in the UK by learning English. We have modern services in which mixed groups in the host family accommodation can have English lessons with qualified teachers. Your group can have lessons in the morning before enjoying trips in the afternoon. Let us know what level of English your group is in and what you would like to focus on, and our teachers will plan the appropriate lessons.
